HEALTH DEPARTMENT,
COUNCIL OFFICES,
CHICHESTER,

March, 1924.

TO THE RIGHT WORSHIPFUL THE MAYOR, ALDERMEN AND
COUNCILLORS OF THE CITY OF CHICHESTER.

GENTLEMEN,

I have the honour to present to you my Annual Report, which according to Circular No. 451, dated the 15th of December, 1923, issued by the Ministry of Health, will be styled an Ordinary Report. Annual Reports of a full and detailed character, styled Survey Reports, will normally be required at intervals of not more than five years.

(1). GENERAL STATISTICS.

Area (acres)	1,538
Population (1921 Census)	12,413
Estimated Population (1923)	12,680
Number of inhabited houses (1921)	2,647
Number of families or separate occupiers (1921)	2,721
Rateable Value ... Poor Rate	£60,773
General District Rate	£54,233
Sum represented by a penny rate	£230

According to the 1921 Census Returns, just published, it appears there are 2,647 structurally separate dwellings in the City, of which 67 were vacant on Census night, the 19th—20th June, 1921, and at the same period 24 houses were in course of erection.

There were 2,721 private families occupying these houses, having an average of 1·34 rooms per person.

174 of these houses consist of 1—3 rooms.	
1,567 " " 4—5 "	
711 " " 6—8 "	
195 " " 9 or more rooms.	

The rooms counted are the normal living rooms, including kitchens and bedrooms, but excluding sculleries, bathrooms, box-rooms, and rooms used for business and professional purposes.

The above details show that at that period 74 houses were required to provide one house per family.

(2). EXTRACTS FROM VITAL STATISTICS OF THE YEAR.

		Total.		M.		F.	
Births {	Legitimate ...	205	...	106	...	99	} Birth Rate 16·79
	Illegitimate ...	8	...	4	...	4	
Deaths	142	...	64	...	78	—Death Rate 11·19

Number of women dying in, or in consequence of, childbirth :

From sepsis	1
From other causes	1

Deaths of Infants under one year of age, per 1,000 births :—42·25

Legitimate.		Illegitimate.		Total.
9	...	Nil	...	9

Deaths from Measles (all ages)	Nil
„ „ Whooping Cough (all ages)	1
„ „ Diarrhoea (under two years of age)	Nil

(3). NOTIFIABLE DISEASES DURING THE YEAR.

Disease.	Total Cases Notified.	Cases admitted to Hospital.	Total Deaths.
Small Pox	Nil	Nil	Nil
Diphtheria	8	8	1
Scarlet Fever	2	2	Nil
Enteric Fever (including Paratyphoid)	9	2	1
Puerperal Fever	3	Nil	1
Pneumonia	15	1	4
Other diseases generally notifiable :—			
Ophthalmia Neonatorum	2	Nil	Nil
Erysipelas	1	Nil	Nil
Cerebro-spinal Meningitis	1	1	1
Poliomyelitis	2	Nil	Nil
Other diseases notifiable locally :—			
Chicken Pox	37	Nil	Nil
Tuberculosis :—			
Pulmonary	26	Nil	8
Non-Pulmonary	7	Nil	1

In addition to the above, two Diphtheria Carriers, three cases of Scabies and three cases for observation, were admitted to the Isolation Hospital.

I should like to point out that of the 33 cases of Tuberculosis notified during the year, only 21 cases belonged to the City. The other 12 cases were notified from the Royal West Sussex Hospital, the Workhouse, and the West Sussex County Mental Asylum, and came from other districts.

Also with regard to the other cases of notifiable diseases, the following were admitted to the Royal West Sussex Hospital from outside the district, and at the time of admission were all in their early stages :

- 1 case of Influenzal Pneumonia.
- 1 „ Puerperal Fever.
- 1 „ Ophthalmia Neonatorum.
- 1 „ Cerebro-spinal Meningitis.
- 3 cases of Typhoid Fever.

So that, although 80 cases of Infectious Disease (other than Tuberculosis) were notified in the City, only 73 cases belonged to the City. Of these, 37 cases were Chicken Pox.

All cases of Tuberculosis which occurred during the year had been previously notified, and I find all cases are notified by the Medical Practitioners as soon as they are under treatment.

During July and August, four cases of Typhoid Fever occurred, which were the subject of a special report to the Ministry of Health. All the cases had a separate milk supply, and there was no evidence that they were in any way attributed to the City's main drainage or water supply.

One case arrived in the City from London on July 31st, and was admitted to the Royal West Sussex Hospital on August 2nd with pneumonia. In two cases there was a clear history of shell fish and tainted fish being eaten, and in the fourth case, a clear history of sewer gas entering the bedroom from a defective ventilation shaft to the house drains.

DISEASE	Total Cases Notified	Cases admitted to Hospital	AGE PERIODS											
			Under 1 year	1-2	2-3	3-4	4-5	5-10	10-15	15-20	20-35	35-45	45-65	65 and over
Diphtheria	8	8	1	...	1	2	1	3

(4). CAUSES OF SICKNESS.

Owing to the prevalence of Chicken Pox amongst the children attending the Portfield Infants' School, the County Medical Officer closed the School from the 26th July to the end of the term.

(5). SUMMARY OF NURSING ARRANGEMENTS, HOSPITAL AND OTHER INSTITUTIONS AVAILABLE FOR THE DISTRICT.

Professional Nursing in the Home.

(a). General. A Nurse from the Royal West Sussex Hospital confines her whole attention to the district for General Work.

(b). Infectious Diseases, *e.g.*, Measles, &c. Nurses from the City Isolation Hospital visit cases of Measles on occasion when required.

Midwives.

The City Council provides no Midwives. The "Queen's Nurses," under the control of a Local Welfare Committee, do the Midwifery work amongst the working classes. There are four Midwives practising in the district.

Clinics and Treatment Centres.

A Maternity Child Welfare Centre (Consultation and Treatment) is situated at No. 15, St. Martin's Street, under the control of a Local Welfare Committee.

A School Clinic and Tuberculosis Clinic is situated at No. 4, St. John's Street, under the control of the West Sussex County Council.

Venereal Diseases. Cases of this disease are treated at the Skin Department of the Royal Sussex County Hospital and also at the Royal Portsmouth Hospital. This work is controlled by the West Sussex County Council.

HOSPITALS PROVIDED OR SUBSIDISED BY THE LOCAL AUTHORITY OR BY THE COUNTY COUNCIL.

(1). Tuberculosis. The West Sussex County Council have a Sanatorium at Aldingbourne, about four miles from the boundary of the City, for the treatment of cases in West Sussex.

Twelve cases of Tuberculosis were admitted to various Sanatoriums for treatment during the year.

(2). Maternity. There is no Maternity Hospital in the City.

(3). Children. There is no Hospital devoted solely to children, but they are treated in special wards at the Royal West Sussex Hospital in the City, at which 20 beds are available.

(4). Fever. The Isolation Hospital is situated in the north-east part of the City. There are separate blocks for Scarlet Fever and Diphtheria, and accommodation is provided for Enteric Fever and Pneumonia associated with Influenza or Measles, also Cerebro-spinal Fever.

The total number of beds in the Hospital is 28.

This Hospital is supported wholly by the City Council.

(5). Small Pox. Arrangements have been made with the West Sussex County Council to treat all cases of Small Pox which occur in the district, and which would be removed to the Brighton Borough Isolation Hospital.

(6). *Other Accommodation.*

There is institutional provision in the City for unmarried mothers, illegitimate infants and homeless children; the Poor Law Institution Infirmary, the Lavant Homes, and occasionally at the Royal West Sussex Hospital.

Ambulance Facilities.

(a). For infectious diseases. An Ambulance is provided by the City Council and kept at the Isolation Hospital for all cases of infectious diseases.

(b). For non-infectious or accident cases. A Motor Ambulance is provided, which works in conjunction with the Sussex Red Cross Society under the control of a Local Committee, and is practically self-supporting.

(6). LABORATORY WORK.

Dr. Galt, of the "Stephen Ralli" Memorial Laboratory, Royal Sussex County Hospital, Brighton, has done all the Bacteriological work required, and during the year the following examinations were made by him with the annexed results :

			Positive.		Negative.		Total.
Diphtheria	8	...	58	...	66
Tuberculosis	6	...	8	...	14
Widal	3	...	1	...	4
			<hr/>		<hr/>		<hr/>
			17		67		84
			<hr/>		<hr/>		<hr/>

The City Council issue diphtheria antitoxin to patients in the Isolation Hospital and to cases of a doubtful nature to Medical Practitioners.

(7). SANITARY ADMINISTRATION.

Adoptive Acts, &c.

The Corporation own the following by virtue of Local Acts :

The Waterworks, the Markets, and the Canal.

Adoptive Acts are as follows :

The Public Health Acts Amendment Act, 1890 ; parts 3, 4, and 5.

The Private Street Works Act, 1892.

The Public Health Act, 1907, part VI.

The work carried out by the Sanitary Inspector under Article 19 of the Sanitary Officers Order, 1922, is given in his report attached.

Premises where food is stored, exposed for sale or prepared, are visited at frequent intervals.

Slaughter-houses.

There are seven Registered Slaughter-houses and four Licensed Slaughter-houses in the City, all of which are kept in good order and condition.

Disinfection and Disinfestation.

When a case is removed to the Isolation Hospital the rooms used by the patient are disinfected at once by Formalin Fumigation, and in cases of Scarlet Fever and Tuberculosis the room occupied is completely re-decorated.

If not removed to the Isolation Hospital, the disinfection is carried out at the termination of the case.

In all cases the bedding is now removed to the Council's Steam Disinfector.

During the year ending March 31st, 1923, the Steam Disinfector was used on 30 occasions, and the following articles were disinfected :

49 Mattresses.

54 Pillows.

12 Bolsters.

4 Carpets.

10 Blankets.

4 Feather Beds.

7 Cushions.

And sundry small articles.

The total expenditure for Disinfections and Steam Disinfectors for the same period was £30 0s. 7d., and the receipts from Private Disinfections £10 18s. 0d.

Dairies, Cowsheds and Milkshops.

All Dairies, Cowsheds and Milkshops are kept under constant supervision, and only in one instance was it necessary to caution a Cowkeeper with regard to the limewashing of the Cowsheds.

One Purveyor of Milk was struck off the Register under the Milk and Dairies (Amendment) Act, 1922.

Sale of Food and Drugs Act.

The work under this Act is carried out by the Inspector of Food and Drugs for the West Sussex County Council, and the following samples were taken during the year :

Description.			Number of Samples Analysed.		Result of Analysis.		
					Genuine.		Otherwise.
New Milk	10	...	10	...	—
Salt Butter	1	...	1	...	—
Chicken and Ham Paste	1	...	1	...	—
Beef Dripping	1	...	1	...	—
Jam (Strawberry)	1	...	1	...	—
			—		—		
			14		14		
			—		—		

The average content of the 10 samples of New Milk analysed was as below :

FAT.		NON-FATTY-SOLIDS.		TOTAL SOLIDS.
3·89 %	...	8·99 %	...	12·88 %

(8). PUBLIC HEALTH STAFF.

The Medical Officer of Health—A. M. Barford, M.D., F.R.F.S., D.P.H.
(Part-time Officer).

Salary, contribution made under Public Health Acts.

The Sanitary Inspector—F. C. Nash,
Associate Member Institute of Municipal and County Engineers,
Associate Royal Sanitary Institute.
(Whole-time Officer).

Salary, contribution made under Public Health Acts.

Clerk—(Miss) E. H. Putman.

(9). HOUSING.

Number of new houses erected during the year :

(a) Total	14
(b) With State assistance under the Housing Acts, 1919 or 1923 :	
(i.) By the Local Authority	Nil
(ii.) By other bodies or persons	Nil

The City Council is proposing to build 38 houses as a commencement under the 1923 Act.

UNFIT DWELLING HOUSES.

1. *Inspection.*

(1). Total number of Dwelling Houses inspected for housing defects (under Public Health or Housing Acts) 519

(2). Number of Dwelling Houses which were inspected and recorded under the Housing (Inspection of District) Regulations, 1910 106

(3). Number of Dwelling Houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation Nil

(4). Number of Dwelling Houses (exclusive of those referred to under the preceding subheading) found not to be in all respects reasonably fit for human habitation 71

2. *Remedy of Defects without Service of Formal Notices.*

Number of defective Dwelling Houses rendered fit in consequence of informal action by the Local Authority or their Officers 91

3. *Action under Statutory Powers.*

A.—Proceedings under Section 28 of the Housing, Town Planning, &c., Act, 1919.

(1). Number of Dwelling Houses in respect of which notices were served requiring repairs Nil

(2). Number of Dwelling Houses which were rendered fit :

(a) By Owners Nil

(b) By Local Authority in default of Owners ... Nil

(3). Number of Dwelling Houses in respect of which Closing Orders became operative, in pursuance of declaration by Owners of intention to close Nil

B.—Proceedings under Public Health Acts.

(1). Number of Dwelling Houses in respect of which notices were served requiring defects to be remedied ... 73

(2). Number of Dwelling Houses in which defects were remedied :

(a) By Owners ... 70
 (b) By Local Authority in default of Owners ... Nil

C.—Proceedings under Sections 17 and 18 of the Housing, Town Planning, &c., Act, 1909.

(1). Number of representations made with a view to the making of Closing Orders ... Nil

(2). Number of Dwelling Houses in respect of which Closing Orders were made ... Nil

(3). Number of Dwelling Houses in respect of which Closing Orders were determined, the Dwelling Houses having been rendered fit ... Nil

(4). Number of Dwelling Houses in respect of which Demolition Orders were made ... Nil

(5). Number of Dwelling Houses demolished in pursuance of Demolition Orders ... Nil

I have the honour to be, Gentlemen,

Your obedient Servant,

ARTHUR M. BARFORD,

Medical Officer of Health.

CITY OF CHICHESTER.

ANNUAL REPORT

OF THE

SANITARY AND HOUSING INSPECTOR,

FOR THE YEAR 1923.

HEALTH DEPARTMENT,
CHICHESTER,

March, 1924.

TO THE RIGHT WORSHIPFUL THE MAYOR, ALDERMEN AND
COUNCILLORS OF THE CITY OF CHICHESTER.

GENTLEMEN,

I beg to submit to you a Report showing the work carried out in my department during the year 1923.

Total number of inspections made during the above period	...	1,113
Complaints received	33

Slaughter-houses—

Number in the City, registered	7
„ „ licensed	4
„ of Inspections made	41
„ of Letters <i>re</i> Limewashing	1
„ of Letters complied with	1
„ of Defects found and remedied	6

Cattle Market—

I have attended the Cattle Market regularly throughout the year and inspected the Cattle prior to Auction.

On March 21st, 1923, I found a Roan Cow, No. 123 in Messrs. Stride's Auction, in an emaciated condition. I called the Veterinary Surgeon's attention to the animal, who was of opinion it was diseased. The Owner agreed to have it sent to the Knacker's-yard for slaughter, and upon post-mortem made by the Veterinary Surgeon, the animal was found to be suffering from Johnes disease. Proceedings were

taken against the Owner (Mr. H. Neale) for sending a diseased animal into the Market, and at the hearing of the case on March 31st the Bench imposed a fine of £1 and £1 1s. costs.

On May 30th, 1923, I found a Red Cow in the Market, belonging to Mr. Barlow, in an apparently diseased condition. The Owner agreed to have same slaughtered, and upon a post-mortem held by a Veterinary Surgeon, the animal was found to be suffering from Tuberculosis. Proceedings were taken against the Owner for sending a diseased animal into the Market for sale, and on June 9th, 1923, the Bench decided to convict and fined the Owner £5 and costs.

On several occasions it has been necessary for me to keep observation over animals, and take steps to notify the Sanitary Inspector of the district to which they may be consigned.

On October 1st, two Cows, in an emaciated condition, were being taken in a float along West Street, and it was ascertained they were going by road to a Portsmouth Slaughter-house. I telephoned to the Sanitary Inspector at Portsmouth, and upon arrival they were inspected by their Meat Inspector, and when slaughtered they were condemned on account of Tuberculosis.

Food Inspection—

The following have been surrendered to me during the year and destroyed :

- 5 Tins of Corned Beef.
- 4 Dozen Kidneys.

On November 3rd, 1923, I received information that carcasses of two sheep were taken to No. 10, Chapel Street, the previous evening, and which were supposed to be diseased.

I visited the premises in company with a police-constable, and saw the meat, which proved to be goat flesh in course of preparation for sale for human consumption, in a room on the ground floor. The room was in a deplorable condition, and the meat appeared to be on the verge of decomposition. I called in the Medical Officer of Health, who certified the meat to be unfit for food, and who instructed me to seize the same.

The meat was taken before a Magistrate, who ordered it to be destroyed, and upon the case coming before the City Bench the two defendants were fined £2 each.

Workshops (excluding Bakehouses)—

Number in the City registered	69
„ of Visits of Inspection	61
„ of Letters sent <i>re</i> Limewashing	1
„ of Letters complied with	2

Bakehouses—

Number of Bakehouses on register at the beginning of 1923...	18
„ of Visits of Inspection	45
„ of Letters <i>re</i> Limewashing	2
„ of Letters complied with	2

Factories—

Number of Visits of Inspection	17
„ of Letters <i>re</i> Limewashing	Nil
„ of Letters complied with	Nil

Cowsheds, Dairies and Milkshops—

Number of Cowkeepers on register	5
„ of Cows in the City	75
„ of Visits of Inspection to Cowsheds	30
„ of Letters <i>re</i> Limewashing	3
„ of Letters complied with	3
„ of Purveyors of Milk and Dairymen on the register	19
„ of Visits of Inspection to Milkshops and Dairies	24
„ of Letters sent <i>re</i> Limewashing	1
„ of Letters complied with	1

Offensive Trades (Tanners, Fellmongers and Bone Boilers)—

Number of Offensive Trades in the City	3
„ of Visits of Inspection	22
„ of Letters sent <i>re</i> Limewashing	Nil
„ of Letters complied with	Nil
„ of Defects found and remedied	2

HOUSING REPORT.

The following is a summary of the work done during the year 1923, under the Housing, Town Planning, &c., Acts, 1909 and 1919.

During the year, 106 houses have been inspected.

Seventy-one informal notices or letters have been sent to the Owners, or Agents for the Owners, where work was required to be executed.

Three hundred and twenty-five inspections have been made during the year in respect of work in progress.

The following is an analysis of the work carried out in the City under the Housing Acts, to the end of the year 1923 :

Total Inspections, 1913 to 1922	2,010
Total Inspections in 1923	106
				<hr/> 2,116

Year 1923 :

Works completed at	91
No defects at or dealt with as Inspector of				
Nuisances	35
Work in progress at...	Nil
Instructions given to Builders	Nil
Work partially completed at	4
Work not commenced at	8
				<hr/> 138

Summary from the reports for the years 1913 to 1922 (inclusive) :

No defects at or dealt with as Inspector of				
Nuisances	550
Referred to Surveyor	5
Houses closed (8 Orders determined in 1914)	...			14
Houses closed by Owners	4
Works completed at	1,405
				<hr/> 1,978
Total	...			2,116

Table showing defects found under each heading at the houses inspected during the year 1923.

1. *Water Supply*—

From Shallow Wells at	1
-----------------------	-----	-----	-----	-----	---

2. *Closet Accommodation—*

No flushing apparatus to W.C's at	3
No ventilation to W.C's at	Nil
W.C. pans defective or cracked at	2

3. *Drainage—*

Defective at	21
No drainage at	3

4. *Light, Air, Dampness or Uncleanliness—*

Insufficient ventilation at	2
Rooms dirty at	10
Dampness at	6

5. *Condition of Yards—*

Insanitary condition at	2
Defective paving at	2

6. *Refuse and Ashes—*7. *Dangerous Rooms—*8. *Other Defects—*

Defective and Damp Floors at	1
Structural Defects at	12
Guttering to Roof defective at	5
No Guttering to Roofs at	Nil
No Sinks at	2
Defective Sinks at	5
Roofs defective at	8
Walls defective at	4
Ceilings defective at	4
Windows defective at	2
Doors defective at	4
Grates defective at	5
Miscellaneous Defects at	43

Table showing the number of defects remedied during the year 1923.

1. *Water Supply—*

Town Water laid on	1
--------------------	-----	-----	-----	-----	-----	---

2. *Closet Accommodation—*

Flushing apparatus provided to W.C's at	3
Ventilation provided to W.C's at	Nil
Defective or cracked pans replaced at	2

3. *Drainage—*

Defective drainage repaired at	21
Houses connected to the sewer	3
Houses drained to cesspools	Nil

4. *Light, Air, Dampness and Uncleanliness—*

Ventilation provided to rooms at	6
Rooms cleaned at	6
Dampness remedied at	11

5. *Condition of Yards—*

Paving provided to yards at	2
Paving to yards repaired at	5

6. *Refuse and Ashes—*7. *Dangerous Rooms—*8. *Other Defects—*

Defective or damp floors repaired at	7
Structural Defects repaired at	8
Defective Guttering to Roofs repaired at	8
Guttering provided to Roofs	Nil
Sinks provided at	2
Defective Sinks replaced at	13
Defective Roofs repaired at	8
Defective Walls repaired at	5
Defective Ceilings repaired at	4
Defective Windows repaired at	2
Defective Doors repaired at	7
Defective Grates repaired at	11
Miscellaneous Defects remedied at	50
